1977-1980 Accidental Deaths/Type of Accident/State.......161-164

1977-1980 Selected Statistics............................165-172

FORWARD

The Nevada Section of Vital Statistics is composed of three distinct sections. 1) the Vital Records Section, 2) the Quality Control Section, and 3) the Data Entry Section. These three areas carry on a statewide system of registration, collection, and preparation of data pertaining to births, deaths, adoptions, paternities, legitimations, induced abortions, marriages and divorces.

This report summarizes data compiled from original birth, death, stillbirth, induced abortion, marriage and divorce records filed with the Section of Vital Statistics as required by law. Standard forms recommended by the US Public Health Service are used for certificates of birth, death, fetal death (stillbirth), and reports of induced abortion. The quality of data presented in this report is directly related to the completeness and accuracy of the information contained on the certificates.

Responsibility for filing of birth certificates lies with hospital medical records personnel, the physician, midwife or other attendant. Undertakers or persons acting as such are legally charged with filing death certificates and fetal death certificates. County Recorders are responsible for forwarding the original marriage certificates to Vital Statistics for data collection and the final mailing process to the parties of record. The County Clerk of each county is required to submit a Report of Decree of Divorce/Annulment to the Vital Statistics office for each occurrence in the preceding month. Induced abortion reports are completed and sent in directly by the physician, hospital or clinic.

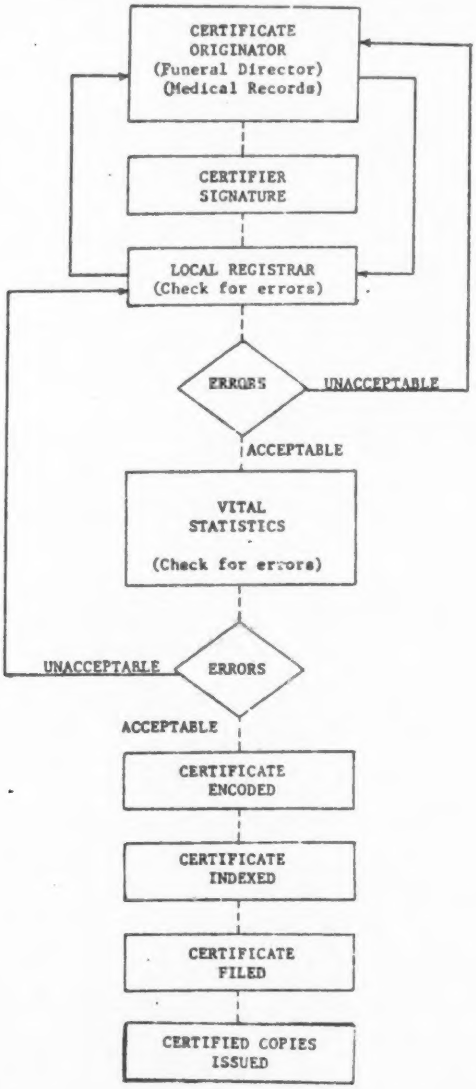
A continuing emphasis on furnishing current information to data users is a top priority of the Section of Vital Statistics. This publication will cover the years 1977 through 1981. Publications were first began in 1974, however, due to budget restraints and other contributing factors, the yearly reports were discontinued in 1977. This current publication will fill the resulting gap and future reports will be on a yearly basis.

Users of this publication are welcome to offer us their comments and/or suggestions. Comments or questions concerning the format, content, technical aspect of the publication or request for additional data should be submitted to; Nevada State Health Division, Section of Vital Statistics, William C. Moell, Administrator, 505 East King Street, Room 102, Carson City, Nevada 89710.

In Nevada, all vital events are first recorded by local registrars in each County, who in turn forwards the original record to the Vital Statistics Office. The Quality Control Section checks the certificate for accuracy and completeness then files the record in a fire proof vault.

The certificates are then taken to the Data Entry Section where statistical data tapes are created. The Statistical Clerk is then responsible for the computer programs to compile the data used in this Report.

THE VITAL STATISTICS PROCESS



VITAL STATISTICS SUMMARY

1977 - 1981 NEVADA VITAL STATISTICS

EACH DAY IN NEVADA, THERE ARE APPROXIMATELY:

LIVE BIRTHS

YEAR	NUMBER
1977	29
1978	31
1979	35
1980	37
1981	40

INFANT DEATHS

YEAR	NUMBER
1977	4
1978	4
1979	5
1980	4
1981	5

HEART DISEASE

YEAR	NUMBER
